

UNIDO CENTRE FOR INTERNATIONAL INDUSTRIAL COOPERATION IN THE RUSSIAN FEDERATION

INDUSTRIAL INNOVATION CLUB

Industrial Innovation Club is consolidating efforts of Russian enterprises with the potential of state organizations and financial funds for framing and implementation of the Projects of international industrial cooperation between BRICS countries being one of the forms of private-public partnership.

The objectives of the Club are assisting in access of Small and Medium Enterprises to modern technologies for providing of sustainable economy growth of participating countries in support of BRICS Summit 2011 Declaration and UNIDO Project 2012 -2015 "Russia - Brazil partnership in Science, Technology and Innovation for SMEs development with extension to all BRICS countries."

Goal of Industrial Innovation Club coincides to BRICS Summit 2013 Declaration "BRICS/Africa: Partnership for Development, Integration and Industrialization".

«19. We recognize the fundamental role played by Small and Medium-Sized Enterprises (SMEs) in the economies of our countries. SMEs are major creators of jobs and wealth. In this regard, we will explore opportunities for cooperating in the field of SMEs and recognize the need for promoting dialogue among the respective Ministries and Agencies in charge of the theme, particularly with a view to promoting their international exchange and cooperation and fostering innovation, research and development.»

Industrial Innovation Club is Technology and Innovation resource of UNIDO Centre for international industrial cooperation in the Russian Federation and it is carrying out practical activity via Technology Platform being framed by the Club.

Technology Platform is Innovation Instrument of Industrial Innovation Club for assisting to implementation of regional and cluster Conceptions and Project proposals in accordance with goals and objectives of the Club. Regional and cluster Conceptions and Project proposals are Innovation Products of Russian enterprises – Club members.
